May 5, 1999

To Whom It May Concern:

I oppose the Draft Memorandum being proposed by the FDA. In Particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

For those of us whose health depends on free access to specialized medications and who are well enough educated to be able to understand which special interests control the FDA, the above Draft Memorandum is an added insult to our intelligence. As I'm sure you are aware, more people are made ill and die from "authorized" medication than from all the specialized compounds ever used.

Sincerely,

Malcolm Lubliner
Richmond, California
